PREFACE

The Statistical Abstract has been such an important source of information which presents data for the users. Data from all sectors of the economy and social aspects are compiled and presented by OCGS. This will hopefully enhance the use of statistics for planning and decision-making.

The Abstract presents brief information on the legislature, population, agriculture, industries, electricity and water, hotel and commerce, employment, Consumer Price Index and the general economy for the years 2008-2017.

We are most grateful and thankful to all who participated in making this publication available. We look forward to continue cooperating with them all.

Office of the Chief Government Statistician welcomes comments from users not only on the quality of data published but also on the relevance and additional statistical series they would like to be included in order to strengthen the Zanzibar Statistical System. Any comment should be channeled to: E-mail zanstat@ocgs.go.tz.

Mayasa M. Mwinyi
Chief Government Statistician,
Office of the Chief Government Statistician,
Zanzibar.

A. LAND AND CLIMATE

A.1 Land

Zanzibar lies off the Eastern Coast of Africa in the Indian Ocean and is situated about 30 kilometers from the mainland of East Africa. It is a low-lying island of coral formation, with an area of about 2,543 sq km of which 1,543 square kilometers for Unguja and the remaining 1,000 square kilometers is for Pemba Island, with number of habitant and unhabitant islets.

Cloves and seaweed are grown for export; fishing is also important to the local economy. Recently tourism has emerged to be the main source of revenues for the Revolutionary Government of Zanzibar (RGZ). The island's main sea port is located at Zanzibar Stone Town situated on the western coast. It has a fine landlocked harbor with docking facilities for both passengers and cargo ships. The main airport is Abeid Amani Karume International Airport situated in the western part of the main town.
